Registration no.: Eco-T L6938 (Act no. 36/1947)
Registrasie nr: Eco-T L6938 (Wet no. 36/1947)

Eco-Rhiz Soya is a bacterial inoculant for fixing nitrogen in the root nodules of soybeans. Eco-T contains the fungus *Trichoderma harzianum*, which helps control root diseases and enhances the growth of soybeans.

Eco-Rhiz Soya is 'n bakterieële entstof wat stikstof in die wortelnodules van sojabone bind. Eco-T bevat die swam *Trichoderma harzianum*, wat help om wortelsiektes te beheer en verbeter die groei van sojabone.

Active ingredient / Aktiewe bestanddeel:
Eco-Rhiz Soya: *Bradyrhizobium japonicum* strain WB74 (Minimum 1×10^{10} cfu/ml when diluted in 200ml water)
Eco-T: *Trichoderma harzianum* (1×10^{10} spores/gram)

Expiry Date: 

Batch No:

Directions for use, precautions and warnings enclosed

Net Contents:
10 x 50g sachets Eco-Rhiz Soya
10 x 10g sachets Eco-T

Eco-Rhiz Soya[®]

A bacterial inoculant containing *Bradyrhizobium japonicum* strain WB74 for fixing nitrogen in the root nodules of soybeans.

Eco-T[®]

Eco-T contains the fungus *Trichoderma harzianum*, which enhances plant growth.

DIRECTIONS FOR USE

Mix one 50g Eco-Rhiz Soya sachet and one 10g Eco-T sachet in 200ml cold tap water. Mix well and apply to 50kg soybean seed.

PRECAUTIONS

- Remember you are working with a living organism.
- Do not use after the expiry date.
- Do not mix in containers that have previously been used for toxic substances. Wash the containers well with soap and water before use.
- Use within 6 hours of mixing.
- Do not leave the inoculant or mixture standing in the sun.
- Shake or stir the mixture frequently during use to avoid settling out of the product.
- Do not mix the inoculant with any agrochemicals without first consulting your sales representative.
- Wash hands with soap and water before eating, drinking or smoking.
- Do not use under extreme conditions i.e. above 35°C or at soil/water pH less than 4 or higher than 7.

WARNINGS

- Keep out of reach of children, uninformed persons and animals.
- Store in a cool, dry place (4 to 20°C) away from chemical pesticides.
- May cause slight eye irritation.
- May cause allergic reactions in sensitive persons.

DISCLAIMER

Although this inoculant has been tested under a variety of conditions, the supplier does not warrant that it will be efficacious under all conditions. Because the active agents are living organisms, its action may be affected by storage, handling, climatic or soil conditions. These naturally-occurring organisms should not cause damage to crops, vegetation, or the environment, nor harm to man and animals. However, in the unlikely event of this happening, the supplier does not accept responsibility for any damage that may occur.
