

Eco-Bb[®]

Eco-Bb helps control whitefly and suppresses red spider mite on beans, tomatoes, cucumbers and brinjals under greenhouse and field conditions.

Warnings

- Keep out of reach of children, uninformed persons and animals.
- Store in a refrigerator (do not freeze) away from chemical pesticides.
- May cause slight eye irritation.
- May cause allergic reactions in sensitive persons.

Precautions

- **Remember you are working with a living organism.**
- Do not use after the expiry date.
- Do not mix in containers that have previously been used for toxic substances. Wash the containers well with soap and water before use.
- Use within 6 hours of mixing.
- Do not use around bee hives or where bees are actively foraging.

Eco-Bb[®]

Eco-Bb help met die beheer van witvlieg en onderdruk rooi-spinmyt op boontjies, tamaties, komkommer en brinjals onder glashuis- en veldtoestande.

Waarskuwings

- Hou buite bereik van kinders, oningeligte persone en diere.
- Stoor in 'n yskas (moet nie vries nie) weg van chemiese middels.
- Mag ligte oog irritasie veroorsaak.
- Mag 'n allergiese reaksie in sensitiewe persone veroorsaak.

Voorsorgmaatreëls

- **Onthou u werk met 'n lewende organisme.**
- Moet nie na die vervaldatum gebruik nie.
- Moet nie in houters meng wat voorheen vir toksies middels gebruik was nie. Was die houters goed met seep en water voor en na gebruik.
- Gebruik binne 6 uur na vermenging.
- Moet nie die poeier of mengsel in die son laat staan nie.
- Moet nie naby byekorwe gebruik of waar bye baie aktief is nie.

- Shake or stir the fungus mixture frequently during use to avoid settling out of the product.
- Do not leave the powder or mixture standing in the sun.
- Do not mix the fungus with any agrochemicals without first consulting your sales representative.
- Wash hands with soap and water before eating, drinking or smoking.
- Do not apply when temperatures are below 15°C or above 35°C.

Disclaimer

Although this inoculant has been tested under a variety of conditions, the supplier does not warrant that it will be efficacious under all conditions. Because the active agent is a living organism, its action may be affected by storage, handling or climatic conditions.

This naturally-occurring organism should not cause damage to crops, vegetation or the environment, nor harm to man and animals. However, in the unlikely event of this happening, the supplier does not accept responsibility for any damage that may occur.

Directions for use

Mix with water at a rate of 1 g/l water and apply as a full cover spray every 7 to 14 days, depending on severity of pest.

Preferably apply the product when humidity is high, such as in the late afternoon.

Good spray coverage is essential. Best results are achieved using a mist-blower.

Wetters or other adjuvants should not be used.

Avoid the use of broad spectrum fungicides for at least three days before and after Eco-Bb applications.

Close the lid of the bottle firmly after the seal is broken.

Gebruiksaanwysings

Meng met water teen 'n koers van 1 g/l water en wend aan as 'n voldekking sproei elke 7 tot 14 dae, afhangend van die erns van die pes.

Dit is wenslik om die produk toe te dien wanneer humiditeit hoog is, soos in die laat middag.

Goeie sproei dekking is noodsaaklik. Die beste resultate word met 'n misblaser verkry.

Benatters behoort nie gebruik te word nie.

Vermý die gebruik van breë-spektrum swamdoders vir ten minste drie dae voor en na die toediening van Eco-Bb.

Maak die bottel styf toe na die seël gebreek is.

- Skud of roer die mengsel dikwels gedurende gebruik.
- Moet nie met enige ander chemiese landboumiddels meng sonder om u verkoopsteenwoordiger te raadpleeg nie.
- Was hande met seep en water voordat u eet, drink of rook.
- Moet nie gebruik wanneer temperature onder 15°C of bo 35°C is nie.

Hoewel die inokulant onder 'n wye verskeidenheid van toestande getoets is, waarborg die verskaffer nie dat die produk effektief in alle omstandighede sal wees nie. Omdat die aktiewe bestanddeel 'n lewende organisme is, word dit soms deur berging, hanteering en klimaat geaffekteer.

Die natuurlike organisme behoort nie skade aan mense, diere, gewasse, plantegroei of die omgewing te doen nie. In die onwaarskynlikheid dat dit wel gebeur, aanvaar die verskaffer nie verantwoordelikheid daarvoor nie.
